TABLE OF CONTENTS

v. 10-11

NUMBER 1, FEBRUARY, 1956

ASHLEY, C. A., ARASIMAVICIUS, A. and HASS, G. M., Chemical studies of isolated myofibrils *in vitro* I. The role of magnesium, calcium and nitrogen-phosphorus partition in contraction induced with adenosinetriphosphate . . . 1

HAGSTRÖM, B. E. and ALLEN, R. D., The mechanism of nicotine-induced polyspermy 14

HAGSTRÖM, B. E., Studies on the fertilization of jelly-free sea urchin eggs . . . 24

GRUN, P., Changes during interphase in nucleic acid and protein content of *Tradescantia* root tip nuclei 29

LUBIŃSKA, L., Outflow from cut ends of nerve fibres 40

KUTSKY, R. J., TRAUTMAN, R., LIEBERMAN, M. and CAILLEAU, R. M., Nucleoprotein fractions from various embryonic tissues. A comparison of physicochemical characteristics and biological activity in tissue culture 48

BRUNNER, JR., A. and VALLEJO-FREIRE, A., Electron microscopic observations on granules and filaments (reticulosomes) of reticulocytes 55

FREDRICSSON, B., Alkaline phosphatase in the Golgi substance of intestinal epithelium 63

OHNO, S. and KINOSITA, R., On the nucleolus-associated chromatin 66

HULTIN, T., The intracellular distribution of protein-bound azo dye in rat liver 71

SNOAD, B., The behaviour of nucleoli in *Phaedranassa carmioli* 78

FJELDE, A., SORKIN, E. and RHODES, J. M., The effect of glucosamine on human epidermoid carcinoma cells in tissue culture 88

DALCQ, A. M., Effets du réactif de Schiff sur les oeufs en segmentation du rat et de la souris 99

RABINOVITCH, M. and PLAUT, W., Cytochemical and autoradiographic observations on nuclear ribonucleic acid in *Amoeba proteus* 120

HARBERS, E. und BACKMANN, R., Untersuchungen über den Einfluss von Röntgenstrahlen auf die Desoxyribonucleinsäure im Walker-Carcinom der Ratte 125

HALE, A. J., The application of interferometric microscopy to a quantitative study of the colloid in the thyroid gland of the guinea-pig 132

ROTH, J. S., Studies on the function of intracellular ribonucleases I. The action of cobalt and nickel on *Tetrahymena pyriformis* W. 146

WALKER, P. M. B. and DEELEY, E. M., A recording microspectrophotometer 155

SLONIMSKI, P. P., Pénétration du benzimidazole dans la cellule de levure . . . 160

WADA, S. K., COLLIER, J. R. and DAN, J. C., Studies on the acrosome V. An egg-membrane lysin from the acrosomes of *Mytilus edulis* spermatozoa 168

GONZALES, F., The functional differentiation of embryonic chick thyroid in roller tube cultures 181

LASFARGUES, E. Y., DELAUNAY, A. and DANIEL, P., Influence of human cord extracts on chick embryonic fibroblasts grown *in vitro* 188

HOWE, A., RICHARDSON, K. C., and BIRBECK, M. S. C., Quantitative observations on mitochondria from sections of guinea-pig mammary gland 194

Weibull, C., The nature of the "ghosts" obtained by lysozyme lysis of *Bacillus megaterium* 214

BRIEF NOTES

Jensen, W. A., On the distribution of nucleic acids in the root tip of *Vicia faba* 222
Sheldon, H. and Zetterqvist, H., Experimentally induced changes in mitochondrial morphology: vitamin A deficiency 225
Chang, J. P. and Berenbom, M., Effect of storage on the enzyme activity of paraffin embedded tissue 228
Ringertz, N. R., On the sulphate metabolism of the mouse brain 230
Pease, Phyllis, Some observations upon the development and mode of attachment of the flagella in *Vibro* and *Spirillum* species 234
Karrer, H. E., Electron microscopic study of bronchiolar epithelium of normal mouse lung 237
Loran, Muriel R., Kerner, M. W., and Anderson, H. H., Dependence of *E. histolytica* upon associated streptobacillus for metabolism of glucose . . . 241
Marshak, A. and Marshak, C., On the question of the DNA content of sea urchin eggs 246
Hellström, B. and Zetterström, Birgitta, The effect of light on the manifestation of the electroretinogram and on histochemically demonstrable SH-groups in the retina 248
Greulich, R. C. and Engström, A., A new approach to high resolution microradiography using extremely soft x-rays 251
Brachet, J., Further observations on the action of ribonuclease on living amoebae 255

NUMBER 2, April, 1956

Afzelius, B. A., The ultrastructure of the cortical granules and their products in the sea urchin egg as studied with the electron microscope 257
Hultin, E., Mechanism of fertilization by rate determinations 286
Hultin, E. and Hagström, B. E., The variability in the fertilization rate 294
Mitchison, J. M., Changes in the optical properties of the egg surface at fertilization 309
Microscopic and submicroscopic changes of the cytoplasm. 316
Monroy, A., Some experiments concerning the chemical mechanisms of the activation of the sea urchin egg 320
Perlmann, P., Response of unfertilized sea urchin eggs to antiserum 324
Runnström, J. and Immers, J., The role of mucopolysaccharides in the fertilization of the sea urchin egg 354
Sugiyama, M., Physiological analysis of the cortical response of the sea urchin egg 364
Tyler, A., Physico-chemical properties of the fertilizins of the sea urchin *Arbacia punctulata* and the sand dollar *Echinarachnius parma*. 377
Yamamoto, T., The physiology of fertilization in the medaka (*Oryzias latipes*) 387
Ribi, E. and Salvin, S. B., Antigens from the yeast phase of *Histoplasma capsulatum* I. Morphology of the cell as revealed by the electron microscope 394

BÁNHIDI, Z. G. and KAVANAU, J. L., Studies of the metabolism of B-vitamins and related compounds in embryonic sea urchin development I. Pantothenic acid and Lactobacillus bulgaricus factor 405
KAVANAU, J. L. and BÁNHIDI, Z. G., Studies of the metabolism of B-vitamins and related compounds in embryonic sea urchin development II. The niacin group of factors 415
GROBSTEIN, C., Trans-filter induction of tubules in mouse metanephrogenic mesenchyme 424
DE NICOLA, MARINA, Astaxanthin in asteroid echinoderms *Asterina panceri* . . 441
GRABE, BARBRO, Considerations of the kinetics of respiration 447
ZECH, H. und VOGT-KÖHNE, LORE, Untersuchungen zur Reproduktion des Tabakmosaikvirus I. Elektronenmikroskopische Beobachtungen 458
OKAZAKI, R., On the possible role of high energy phosphate in the cortical change of sea urchin eggs I. Effect of dinitrophenol and sodium azide 476
II. Effect of uranyl nitrate 489
BIRBECK, M. S., MERCER, E. H. and BARNICOT, N. A., The structure and formation of pigment granules in human hair. 505
FAGRAEUS, ASTRID and THORELL, B., Virus activity in the cytoplasm of erythroleukotic chick cells 515
ALLEN, J. M., The influence of hormones on cell division I. Time-response of ear, seminal vesicle, coagulating gland and ventral prostate of castrate male mice to a single injection of estradiol benzoate 523
AUSTIN, C. R., Cortical granules in hamster eggs 533

BRIEF NOTES

QUAY, W. B., Demonstration of a secretory material and cycle in the parenchymal cells of the mammalian pineal organ 541
GUIDOTTI, G., Autoradiographic evidence of radiosulphate uptake by thyroid gland of rat 544
IMMERS, J., Cytological features of the development of the eggs of *Paracentrotus lividus* reared in artificial sea water devoid of sulphate ions 546
PELC, S. R. and HOWARD, ALMA, Metabolic activity of salivary gland chromosomes in diptera 549
GOREAU, T. F. and PHILPOTT, D. E., Electronmicrographic study of flagellated epithelia in madreporarian corals 552
WOLFSON, N., WILBUR, K. M. and BERNHEIM, F., Lipid peroxide formation in regenerating rat liver. 556
WESTIN, B., The occurrence of mast cells in the mouse vagina in prolonged oestrogenic treatment 558
SAURE, L., Demonstration of A- and B-cells of the islets of Langerhans by a modification of Mann's technique 560
SPIRO, D., The filamentous fine structure of striated muscle at different stages of shortening 562
BAUD, C. A., Aspect au microscope électronique de certaines synapses interneuronales axosomatiques 566

NUMBER 3, JUNE, 1956

OHNO, S. and KINOSITA, R., Three-dimensional observations on the intranuclear structure 569
QUESNEL, V. C. J., Theoretical aspects of competitive antagonism 575
KAMINSKI, MARIE et DURIEUX, JANINE, Étude comparative des sérums de poule, de coq, de poussin, d'embryon et du blanc d'œuf 590
SCHECHTER, V., The effect of water upon gametes, upon maturation, and upon fertilization and cleavage 619
JONES, MARION and BONTING, S. L., Some relations between growth and carbohydrate metabolism in tissue cultures 631
KOHN, R. R., Calcium in aging and fertilized frog eggs 640
SKAAR, P. D., Past history and pattern of serotype transformation in *Paramecium aurelia* 646
SJÖSTRAND, F. S., A method to improve contrast in high resolution electron microscopy of ultrathin tissue sections 657
BACHOFER, C. S., Relationship of catalase and sodium nitrite to protection against X-rays 665
CHEN, P. S., Metabolic changes in free amino acids and peptides during urodele development 675
GLICK, D. and BLOOM, D., Studies in histochemistry XXXIX. The performance of freezing-drying apparatus for the preparation of embedded tissue and an improved design 687
HULTIN, T., The distribution of protein-bound azo dye in subfractions of liver cytoplasm fractions 697
ERNSTER, L., Organization of mitochondrial DPN-linked systems
I. Reversible uncoupling of oxidative phosphorylation 704
II. Regulation of alternative electron transfer pathways 721

BRIEF NOTES

GUSTAFSON, T. and KINNANDER, H., Gastrulation in the sea urchin larva studied by aid of time-lapse cinematography 733
GHIRETTI, F. and D'AMELIO, V., The metabolism of pentose phosphate in sea urchin sperm and eggs 734
ISHITANI, G., UCHIDA, K., and IKEDA, Y., The relation of DNA content to cell size in *Aspergillus* 737
HAGSTRÖM, B. E., The effect of removal of the jelly coat on fertilization in sea urchins 740
RICHTER, KENNETH M., A stage moist-chamber-micromanipulator 744
YČAS, M., A hereditary cytochrome deficiency appearing in yeast grown at an elevated temperature 746
RABINOVITZ, M. and OLSON, M. E., Evidence for a ribonucleoprotein intermediate in the synthesis of globin by reticulocytes 747
FREDRICSSON, B. and WIRSÉN, C., *In-vivo* effect of colchicine on alkaline phosphatase of rat intestinal epithelium 749
LAGERLÖF, B., THORELL, B., and ÅKERMAN, L., Heme and dry mass formation during red cell development 752
MARSDEN, N. V. B., The interferometry of hemolysing erythrocytes 755
